Profile

A deep-seated desire to help people inspired Nindiya Ramchandani to become an attorney and focus on injury law. Nindiya takes great pride in advocating on behalf of clients from a diverse cross-section of the community and ensuring that each receives excellent representation. Nindiya's genuine, compassionate demeanor puts clients at ease. People who seek injury law assistance have had some aspect of their lives turned upside down. They often are concerned about their health and recovery and their ability to pay bills and support their families. "When clients leave our office, my goal is to make them feel that a burden has been lifted and that their case will have my full attention and dedication."

Nindiya is adept at simplifying and taking the mystery out of the legal process. She leverages her keen understanding of insurance policies and their different benefits to locate and allocate funds in the most advantageous manner for her clients. Doing this enables her to maximize recovery for her clients and educates them so they and their families are better protected for the future.

A member of the Stein Sperling team since 2008, Nindiya is a graduate of the prestigious Maryland State Bar Association Leadership Academy. Prior to joining Stein Sperling, Nindiya was a judicial intern to the Chief Justice of the 14th Court of Appeals in Houston, TX. She was also an instructor at Street Law, Inc., an organization that teaches high school students about practical legal issues they encounter in everyday life.

Education

Virginia Tech (B.A., *with high honors*, 2002)
